The Third Edition of the International Conference on Electronic Engineering and Renewable Energy (ICEERE'2022) is going to be the international forum for the presentation of new advances and research results in the fields of Electronic Engineering, Control and Instrumentation, Embedded Systems, Communication and Renewable Energy. The objective of the conference is to bring together academicians, researchers, professionals, executives and practicing engineers, from various industries, research institutes and educational bodies to share and exchange ideas and information on the theme of the conference.

With the successful experience of the first and second Edition (in Saidaia, Morocco 2018-2020), we truly believe that the third edition of ICEERE 2022 will achieve greater success and provide a better platform for all the participants to have fruitful discussions and to share ideas of researches. The third conference ICEERE 2022 will be held in Be Live Hotel 5* - Saidaia, Morocco from 20-22 Mai, 2022. It covers a wide spectrum of topics but are not limited to the following:

Conference Topics:

- Sensors, Communications and Network
- Wireless and Mobile Communication
- Electronics Engineering and Microelectronics
- Materials, Devices, Circuits and Systems
- Biomedical devices & Medical image processing
- Robotics and Autonomous Systems
- Machine Learning and Deep Learning methods
- Smart IoT, Embedded Systems & Industry 4.0
- Signal, Vision and Image Processing
- Power Electronics, Systems and Applications
- Energy and renewable energy systems
- Electric Vehicles
- Electrical Systems
- Energy Storage and Management
- Smart Homes, Cities and Communities
- Smart Grids & Microgrids
